THE HOLISTIC NETWORK

The causes of criminal behaviour, as well as the resources we need to live positive lives, are embedded in every aspect of our individual and communal life: in our families, health, social care, education, employment, relationships and personal development.

We need a holistic network that matches up to the size and complexity of the issues... And that is what the No-Offence! network gives you.

Providing a joined-up service with everyone working together is better for all. We encourage and support sharing to avoid reinventing the wheel!

So, whatever your background and interest, be part of the collaboration and part of the future in criminal justice.

THE PRACTICAL NETWORK

We are finding practical ways to match problems to relevant solutions, by bringing people together in new, co-operative ways.

No-Offence! Conferences

We bring people together to meet, network, challenge and debate the right way to make a difference. These events are an opportunity for No Offence! members to really contribute to the future of criminal justice.

No-Offence! Works

We are linking up people who are looking for criminal justice jobs and the criminal justice organisations with relevant vacancies. This is an easy and efficient way for employers to reach a large and targeted audience of criminal justice professionals. It also enables employees to expand their horizons and develop their careers and professional skills in a fast-changing environment. Jobs that are promoted will be seen by and accessible to our thousands of No Offence! members, strong Twitter following and thriving LinkedIn group.

No-Offence! Promotions

We are also showcasing some of the most innovative ideas and successful practices of our members through the 'Featured Organisations' page of our Forum. Members have the opportunity to promote their whole organisation or a specific project or event, making sure it is seen by thousands of other people within the criminal justice sector.

THE SOLUTION-FOCUSED NETWORK

We are interested in finding the best criminal justice solutions and delivering them in the safest and most efficient way possible.

We are engaged in a healthy, open and enquiring debate about process but are all united by the desire to achieve common outcomes – fewer victims, lower crime and re-offending rates and more people able to live positive lives through effective rehabilitation.

THE GLOBAL NETWORK

Since knowledge knows no boundaries and good ideas come from anywhere and everywhere, we are making the No-Offence! collaborative effort for positive justice and positive lives a global one. Our vision is for us to become the leading cross-sector criminal justice community in the world.
